orne, the Watson. This is spar cious metal, it is regarded as a silmine to a depth of ninety feet, at verore and called argentiferous galena. which depth lead becomes very much In the Miller mines of head Hill in evidence. Mr. Lowery informs quite a little quantity of silver is be-1- that, if the weather permits, he ing found. It now appears that if will have in a sinking plant and to find lead and silver.—Cave-innall within sixty days. He resum- Rock Era. ed the sinking of his shaft last week and will push things until he adds on three other properties at once. fit, they sold it to them.

A letter received from the Crittenden Mining Co., of Henderson, states they will resume operation in the near future. This was received of this district, as this is known to be one of the best undeveloped properties in the county and could, with a little push, grit aud greenback, be listed among the shippers.

The Schoolfield Spees mines will open for the 1907 season April The latest and best mine in this t. They are in better shape than level zine and fluorspar district is ever before, and expect to make good progress in the developement of their property this year.

1 ()

There has never been a time when there was so small amount of fluor spar in the yards at Mexico as there is just now. There are three tons of unwashed gravet spar five ton of reat mine, a genuine bonanza, came lump spar, No. 2, and one ton of No. I lump spar, making a total of fourteen tons. There usually about 2000 tons,

was employed by the company as One can not look over the report as crintendent. After spending by H. Foster Bain of the Fluor Spar Lice weeks in putting the machinery Deposits of Southern Illinois without shape and pumping out the shaft concluding from the amount of space, copened up at the seventy and to say nothing of what is said in that nety foot levels, the richest ore space, that Hardin county has the by of lead and zine ever found in greatest amount of spar in the entire the district and in twenty shifts has spar section, It also has the best ned, heisted and platformed over mality. In his report he says there no tons of this rich ore, and this two entirely different ways by which 4. been done with an average of this mineral may have been concens men per shift. The mine now trated, One is by the action of the plays three men underground, one pormal meteoric waters of the region , ker, and two machine men uses which may have gathered the scatlogersoll-Rand air drill and five tered particles into the veins. The a on top to handle are and ma other is by the action of the heated mery. The underground works waters, either originally mereoic dearranged with two levels and rived from the intruded igneous rock, or drifts, that the drills and hoist or in the part from each source. He are kept running every hour of the further says that in the indications . If The mine is equipped with are that the chief agency was heated hree fifty horse power boilers, one waters in segregation and that an esdat 2 Ingersall Surgent air com- sential portion of the load of these tressor, Lidgerwood hoist and two mines was obtained from a large mass Ingersolt-Rand air drills. Mr. of lower-lying intruded rock, of which liarpending informs us that he has the dikes are the offshoots. Whatthousands of tons of this ore blocked ever may have been the origin of nt and will have no trouble in mak. spar or the other mineral of our counag an average output of 500 tons ty does not concern the land owner of ore per month. He has also made so much the indications that lead to arrangements to tap the ore body at the finding of those minerals. But a greater depth to add more sloping even this does not concern the Harcom to the mines, and invites any din county owners because the minhe interested in mining in this dis- erals are found on the surface. This has been done by nearly every owner of 40 acres of land in our county. Spar and lead are found in many be well to learn what some of the minerals are so they may be known when found. Fluorite or Fluor Spar vin, and a short time ago opened up is one of the most beautiful of min-De largest vein of lead and fluorspar erals, occuring in cubic crystals and ever found in this district, measur- groups of crystals. Sometimes very ng twenty-four feet wide. This large and of a variety of colors, from was opened up at a depth of colorless to green, yellow, brown red three feet. This company is now and purple. It is common to find . nking two shafts 12x12 and have angles of the cube projecting from mined about 600 tons of this ore, the face of another. A very fine Number of bulls, cows, Supt. A 3. Pickens put several specimen of this kind can be seen on wagons to hauling this ore to the a table in the Era office now, which came from the Lead Hill District. These crystals may be ent in various Number of sheep shapes by very light stroke of an edg- Value ed tool. They yield only when the Number of hogs strike is made line with their cleavage. Fluorite is a common numeal and as soon as completed will start in lead veins and is then to form the 'gangne' of the ore. Galena, or Lead Sulphide, is found the Spar, W. S. Lowery, general manager it has cleavage. Little Leaders

Mrs. A. H. McNeely has been seriously ill for the past several days. She now has a trained nurse with her.

[From the Princeton Leader]

Judge and Mrs. J. T. Akin spent Sunday in Marion with their daughter, Mrs. Hugh Hurley.

S. M. Weldon, of Marion, has accepted a position with J. H. Gibbs, 36,605 the Big Spring Saloonist. Mr. Weldon comes highly recommended as an expert mixologist. 7,035

, 75,520 this city, are the proud grand- self. Whenever she read a new pleasing, entertaining and forcible 2,045 Hurley, of Marion. Both are healthy eriticism on the book and there with 12,515 each.

KNIGHTS OF 1

Held their Annual Banquet, Friday Evening February 15th, at the Hotel Crittenden.

AN ENJOYABLE TIME WAS SPENT BY ALL

The Knights of Pythias held their annual banquet at the Hotel Crittenden, Friday evening, February 15th.

The Knights and Ladies assembled at Castle Hall and marched to the hotel, where a sumptuous feast had 2,600 been prepared for them.

Mr. H. A. Haynes was toastmaster and proved himself equal to the occasion, as also did those who responded.

Rich and rare were the many jokes 1,000 and the evening was thoroughly en 78 joyed by all till a late hour.

The toasts were as follows: 96,440 Beauties of Pythianism

The Girl Who Thought She Could

[With apologies to George Ade]

she could write books and only wait- farmers of Crittenden and Caldwell Judge and Mrs. J. T. Akin, of ed for the opportunity to present it- in eo-operation work. Both are parents of twin boys, born Saturday book on love and swords and horse- speakers. morning to Mr. and Mrs. Hugh play, and then read the newspaper little fellows, and weigh six pounds an advertisement of the interesting young author, she would sigh: "If at Mexico last Sunday.

I were but blind or a cripple and compelled to earn my living some way, I just know that Ernest Seton-Thompson would hie himself into the jungle with his lions and foxes; Mary Johnstone's latest novel would be read only by the reviewer's officeboy, while the world would be willing to pay \$1.59 for a copy of my living and throbbing discussion of the divorce problem, the Turtle's Spots, the Automobile Bubble, or the Marriage of Molly O'Donnell and Moses Kolinsky.'

Her best friend, who wrote for the papers, asked her to let him see her plots as outlined in her little pink note-book. He read them and told her: "You certainly have the artistic instinct and literary inflatus "

By and by our heroine got into hard luck and found that she had to pound her bread out of a typewriter. As she sweated over business terms her thoughts soared to higher things and she stole her employer's time in order to write articles for the papers, usually on Monday morning after a Sunday of reading the joke-page and Robert Browning.

She sent one joke to twenty-one magazines, beginning with the Ladies' Home Journal, and ending with Success. When she received the last little poisonous printed slip, "Not available," she decided to let her home paper, the Rocky County Record, publish the joke among its ads, signed "By a Former Citizen."

Ideas flocked into her head, but did not settle down long enough to hatch anything of merit. Nothing daunted, she read Shakespeare, and tried her hand on a little comedy; she read Tennyson and attempted a poem that was to east the Princess into oblivion. Diekens would have 'My good blade earves the easques turned over in his grave until dizzy could he have seen her imitation ofhis style. But the magazines could not see things her way, and she tearfully confided to her friend that if she were famous and had a cinch with the literary lights, her MSS. would sell for \$10 or more per line.

Her friend in the meantime was earning his \$60 per once, in so ofter, for his stunts with the pen and she confided in him. Showed him her stories and asked for his honest opinion.

A few weeks later she read a elever story which had wor the prize in a contest in her favorite magazine. The piot seemed familiar, the char-"He that hath light within his own factors breathed to her, "We have "Dennis."

When she called the attention of her friend to the coincidence, he simply ask her for more plots.

Moral: His pseudonym was Dennis.

PUBLIC SPEAKING.

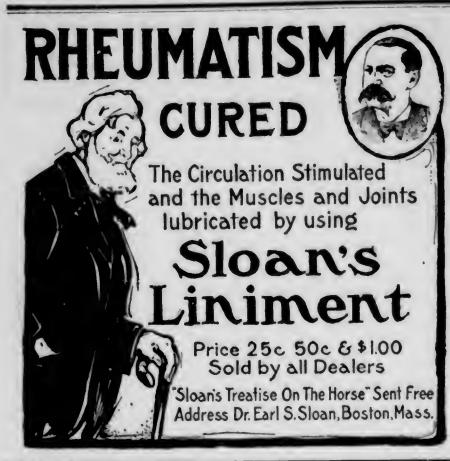

Henderson, Ky., Feb. 14. EDITOR PRESS-RECORD:

Please announce in your next issue that Mr. L. N. Roberson, State Organizer of the American Society of Equity, in company with T. T. Barrett, General Manager of the Stemming District Tobacco Association, will address the farmers of Crittenden and Caldwell counties at Marion, March 4; Fredonia, March 5, and Princeton, March 6. Speaking to begin at 1 o'elock.

Agricultural organization has passed the experimental stage, and the tobacco growers of Kentucky enjoy the distinction of being the leaders in agricultural co-operation. Messrs. Barret and Roberson have been identified with Equity work since its inception in Kentucky and are thor-Once there was a girl who thought oughly competent to instruct the Respectfully,

And millions yet unborn will add their praises to thy name-

The Many Sided Washington

By WALTON WILLIAMS

HAT Washington was very well off in this world's goods is a matter of common knowledge. The fact that he was exceedthe liver and bladder complications lingly shrewd and thrifty in business matters is not so which known. He inherited much property, and he increased it by careful management.

Washington was indeed a many sided man. He could conquer a king or in crease a corn crop with the same fidel ity to detail. He looked closely after the details in farming as well as in toons who for a long time was the fighting, and therein lay the secret of judge of a police cour; in that town. his success in both these professions. "Letters and Recollections of George Washington," published by Doubleside of his life in a manner calculated of His Country was a likely hand at a bargain. It required a mighty lively rascal to cheut George Washington in a business deal. He was an able judge of men and a severe analyzer of motives. In a few words he could delineate the character of a statesman or draw a correct picture of a servant. and he looked after his servants, both employee and stave, from the head overseer on his plantation to the ugilest scullion in his kitchen. The letters mentioned were written

by Washington to his private secre-New Hampshire, who occupied that confidential post during the last sixteen years of the great man's life.

In a letter written from "George Town" early in 1791 Washington ineloses several other letters, one of which he mentions thus:

Another letter from Colo. Cannon which may venture to say proves him to be, what I will not call him, and that I need never look for any Rent from him. I pray you to say to him, if he does come to Philadelphia during my absence—that his own statement given at New York-does not justify his prest, report-and that I am too well acquainted with the prices of grain & the demand for it last year in his own neighborhood, to be imposed upon by such a tale as his letter that these Sentiments and this adviser

exhibits. In a word I mean that I am by no means satisfied with his treatment of

It is well known that Washington provided in his will for the liberation of his slaves after the death of his wintow. White he lived, however, he took good care to see that his stayes served blue properly and that they dot not permit dreams of liberty to disturb their equilibrium. When the capital of the nation was removed to Phila delphia, Washington took a number of slaves from his Mount Vernon es tate to serve in the presidential man sion, a house rented by the president it appears from the following remark-In a letter to Mr. Lear from Richmond that Washington was worried lest some of his negroes night obtain their liberty under Pennsylvania's laws:

The Attorney-General's case and mine onceive, from a conversation I had with him respecting our Slaves, is some wha different. He in order to qualify himself for practice in the Courts of l'ennsylvania, was obliged to take the Oaths of Citizenship to that State; whilst my real dence is incidental as an Officer of Gov ernment only, but whether among people who are in the practice of enticing slaves even where there is no colour of law foo it, this distinction will avail, I know not, and therefore beg you will take the best advise you can on the subject, and in case it may be found that any of my Slaves may, or any for them shall attempt their freedom at the expiration of six months, it is my wish and desire that you would send the whole, or such part of them as Mrs. Washington may not chuse to keep, home-for although I do not think they would be benefitted by the change, yet the idea of freedom might be too great a temptation for them to resist At any rate it might, if they conceived they find a right to it, make them insuient in a State of Slavery. As all except Hercules and Parls are dower negroes, 11 behoves me to prevent the emancipation of them, otherwise I shall not only loose the use of them, but may have them to pay for. If upon taking good advise it is found expedient to send them back to Virginia, I wish to have it accomplished under pretext that may deceive both them and the Public:-and none I think would so effectually do this, as Mrs. Washington coming to Virginia next month (towards the middle or latter end of it, as she seemed to have a wish to do if she can accomplish it by any con-venient and agreeable means, with the assistance of the fltage Horses &c. Tid would naturally bring her maid and Austin—and Hercules under the idea of coming home to Cook whilst we remained there, might be sent on in the stage Whether there is occasion for this or no according to the result of your enquiries

The common opinion is that Wash lugion was such an mastere personne that he never delgaed to smile or crack a joke. A postscript to a letter to Mr. Lear just after he left Philadel phia and the presidency in 1797 has a humorous touch. The ex-president was arranging to have his things sent back to Mount Vernon, to which he was retiring to end his days in peace and quietude. He gave instructions to have the grate packed in some oid earpeting to keep it from scratching. "The bed stend which Nelly Custis siept on helongs (Mrs Washington says) to me Let this and the trimille under it be sent in the Vessel." After various nth er instructions and Washington's to bilital expression of affection, regard etc., with which he closed all his bit ters to his secretary came the post script: "On one side I am collect upon to remember the l'arrot, on the other to remember the dog. For my own part I should not pine much if both were furgot "

Almost every one of England's popalar games has at one time or another been made Illegal. Scotland is the some of golf, yet in 1457 the Scottish parliament passed an act entalling severe pennities on any one caught playlng the game,

Forbidden Games.

Edward III., Henry IV, and Henry VIII, all strongly objected to football, and Queen Elizabeth made it an oftense punishable by Imprisonment to play foodigell. There is a record of sixteen people being imprisoned at once for breaking this law.

l'oorball is still under a ban in some parts of the world. Two of the Swiss cantons refuse to allow it, and in Turkey it is absolutely illegal, and those who dare to play it are punished.

Among oddities of laws about games must be mentioned a French decree of the thirteenth century. By the king's command the gullants of the court were forbidden to play tennis "in their shirts." Whether his majesty of J A Ledbetter France insisted upon coats only or whether the unfortunate players were doomed to practice in complete suits of armor does not appear. - London Graphle.

Agriculture in Africa. Excepting perhaps some Malayan trilies the Africas negroes are said to be the finest agriculturists of all the natural races. The Bongos are said to have a greater variety of garden plants around their buts than are found in the fields and gardens of a German village. Irrigation is practiced. The Angolas, in the Kongo districit, have practled irrigation. The Wachungu show wonderful skill in irrigating their terraced hillsides by tunnels of water diverted from the main stream. "They have a clear mode of irrigating equally a given surface. As the little canals of water are always elevated above the W J Roberts cultivated plants, they will tap them at a convenient spot above the beds to be watered and then turn the stream into a rough conduit made of the bol-Miss Naomi Minner of Toda visited low stems of bunnas cut in half, the end of each stein overlapping the next. the paper, in reference to lad and you going to run Mr Candidate, calls to mind another time? The knights at the banquet last by this same Lad but with an estire-

ordinary wheelbarrow.

Mr. Candidate addressed Unale Jumie something like this

"Hello, Ungle Jimmie.

"Howdy, Mr. Candidate. "I'nole Jimmie that is certainly a fine load of word, is it sold?' "Sure."

"What is it worth?" "Fifty, cents," responded Unele

"Why, my dear sir, don't you know that you can't afford to haul such a load of wood as that to town and sell it fee lifty cents? Why, the very idea, here is a dollar and it is well worth that, just put it off at

In about ten days the election came off and I'ncle Dany was elected | for another term of four years. The following week I'nale Jinamie drove into town with another load of wood like unto the first, looked up his good friend and wood enstomer and said "George, I have another load of wood, can you use it?

George inquired what it was worth. 'Oh, just a dollar, George, just a

"Gee whiz, man, I can buy all the wood I want from Sherman Clark for fifty cents a load, '

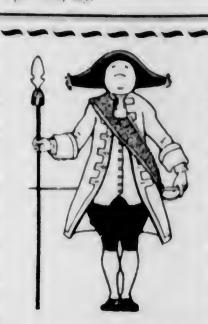

Uncle Jimmie, almost stunned by the abrupt answer, could hardly believe it came from his recent good friend and wood onstomer, absolutely silent for a few seconds and apparently in a deep study, finally in-

"George, I hear that I'ncle Davy

d guess that they will run me antil my new coal store arrives.

When the Silhouette Was and the Cherry Popular

A Sketch of Washington's Time

By WALTER J. JANES

N Washing. ton's day there was no such art as photography to preserve the likenesses of the great and the humble. But for the painters of portraits in oil the features of the Father of His

WASHINGTON. Country and of the other important figures of his time would have been lost to posterity. There existed, however, one poor makeshift or substitute for the photograph. That was the silbouette. Washing ten, Franklin, Jefferson, Thomas Paine and other Illustrious builders of the republic are preserved to us in slihouette, and, even though there had been no painters to portray their lineaments, these simple makeshifts would have given us a fairly adequate representation of their profiles.

The silbouette itself is searcely older than the American republic. It originated in 1757. Etlenne de Silhouette. a Parisian banker, was responsible for both the name and the thing. Personally, however, he had nothing to do with it. The good monsieur was made minister of finance for the French monarchy in 1757. Finances were in

a very bad condition. Foolish war and incompetent ministers. not to speak of inordinate extravagances throngbout the king's court, had reduced France toapitiable state.

Banker Silliouette was called to the financial

MADISON.

ministry in the a resort to burlesque. Accordingly plossoned with silver, and their fruits they economized by wearing conts of purest gold " boxes made of plain wood and wenring hats without resettes. Those who or untrue? To believe or not to believe had been patronizing portrait painters -that is the question. So far as the turned to the "shadow picture" in 'air fame of George Washington is

> east by the subfeet on a wall by cangement of the ing of this shad. ow outline and black paper and white paper resulted in a profilelikeness Later some "artists" grew so proff

making them life size or in miniature at will. These pictures were called eithonertes, being "n in Silhonette" because they represented strict economy.

A hundred years ago and more the althoughte was exceedingly popular Scarcely anybody was too poor to pay a stroiling artist for cutting a silbouette. Much less than a hundred years ugo the silhonette was still popular. There was no family album then, it was too early even sixty years ago for the family album, which now we are disposed to look upon as old fashioned.

The very first sunlight photograph, ever made in the world. Miss florothy Catherine Draper of New York being the subject, was taken by Professor John W. Draper in 1810, and it was nearly twenty years thereafter before photography became really practicable Thus the modest slihouette remained what may be termed the poor man's picture until times well within the memory of many persons now living.

Today the slihonette is merely a curlosily. At some of the summer resorts, at county figirs and expositions an oc-

casional sulhomette art'st may be found, rapidly cutting the profile of your sweetheart or yourself for a

small fee. He probably knows little or nothing of the history of the silhouette, and the pretty maiden who merrily accepts and treasures her JEFFERSON. profile in black on a white ground as a "souvenir" of the occasion is unaware that such greamen as Washington and Jefferson at

Weems Tree Tale George and the Hatchet Episode

By ROBERTUS LOVE

[Copyright, 1907 by Robertus Love]

Ol.L(WING 19 the original cherry tree and hatchet story, faithfully copied from the 1800 edition of Parson Weems' "Life of George Washington. With Curlous Anecdotes. Equally Honourable to Himself and Exemplary

to Ris Young 'ountrymen." The author prefaces the anecdote with a brief paragraph, in which he says "It is too valuable to be lost and too true to be doubted." The famous story begins on page 13 of the book. An old woman tells it,

"When George," said she, "was about ix years old, he was made the wealthy master of a hatchet! of which, like most little hoys, he was immoderately fond; and was constantly going about :bopping every thing that came in his way. One day, in the garden, where se often amused himself hacking his nother's pea-sticks, he unjuckily tried the edge of his hatchet on the body of t beautiful young English cherry-tree, which he hacked so terribly, that I ion't believe the tree ever got the better of it. The next morning the old rentleman, finding out what had befallen his tree, which, hy the way, was a great favorite, came into the house: and with much warmth asked for the mischlevous author, declaring at the same time, that he would not have taken five guineas for his tree Presently George and his hatchet made their appearance, 'George,' said his father, 'do you know who killed that beautiful little cherry tree youder in the garden? That was a tough ques-'ion; and Heorge staggered under it for a moment; but quickly recovered himself; and looking at his father with the sweet face of south brightened hope of solving the problem of extricut- with the inexpressible charm of all ing France from her poverty. He was conquering truth, he bravely eried out wise and prudent. He believed in sav- I can't tell a lie, I'a, you know I can't ing rather than in extravagance. He tell a lie I did out it with my hatch erged economy upon all the king's at. Bun to my arms you dearest boy." courtiers, as well as upon the govern- or ed his father in transports, 'run to ment officials. This was too much for my arms; glad am 1, George, that you the reckless, plunging aristocracy. The mave killed my tree; for you have paid high filers of French society laughed me for it a thousand fold. Such an loud and long, and they determined to act of heroism in my son is worth earry out M. de Silhouette's advice by more than a thousand trees, though

Is the immortal cherry tree story true sheer ridicule. The shadow picture concerned, it does not matter an lota was the profile That is fixed, a star of the first imagaltude Doubliess there are many good persons who trust fondly that little George hacked the tree with his hatch ot and owned up. on the other hand, tamps. The tractifhere are many equally good persons who, preferring to look upon Washing-'on us n mnu rather than as a divinity its cutting out in ami as a real boy rather than as an angel child, deep down in their hearts pasting over desire to believe that George never owned a hatcher, that there never was a cherry tree in Papa Washington's garden and that the hacking was a penbrution of a back writer

clent that they could ent proffles with story. "Person" Weems, Itev. Mason We know who first published the out the old of the shadow tracing. Locke Weems, one of Washington's earliest blographers, did that But It seems that the story did not appear until the fifth edition of the parson's book, which was tirst published in ISON, two years after Washington's desia, under the quaint title of "A

HE UNDUCKILY TRIENCINE EDGE OF HIS HATCHET ON A YOUNG CHERRY THEE." History of the Life and Deuth, Virtues and Exploits of General George Wash-Ington, Fulthfully Taken From Au-

thentic Documents. Why, asks the pryling critic, to whom no secular history is sacred, did not Mr. Weems Include the several boyhood anecdotes in his first and other early editions? You may reply that perhaps he had not heard of the stories at that time. But the context of the book Itself dispenses with that argument. Parson Weems distinctly states that both the cherry tree story and another anecdote showing the little George's goodness of heart, which also be relates, were told to him by an aged lady twenty years before the date of writing. This lady, he sald, was a distant relative of the Washingtons and spent much time dur-

- re: girlhood at the family home e Fredericksburg, Vn., where e orchard that grew the tree that If you Il look out of your window as hacked by the hat let that theorge ined -if he had it.

George Washington was born in 1732. The hatchet incldent, happening when he was slx, must date from 17.38. Their soft dresses are so fluilly Nearly seventy years passed before it got into print, yet for thirty vals. The they make the air seem stuffy Washington had been a famous character. One is inclined to ask why I'r son Weems didn't use the story in 11s earlier editions, since he says he had known it for twenty years. Moreover, why didn't he tell us the turne of this distant kinswoman of Washington, since by his own admission he was writing the life of the "greatest man that ever lived?" Historians who write actual facts are enger to give authorities for their statements. In his first edition the purson de-

clared, right on his title page, that the matter of the book was "faithfully taken from authentic documents' When the several stories were insert ed, however, we find the title page at Inding to "curious anecdotes," with the reference to faithfulness and antheutic documents altogether elimiunt-

It is unfair to Parson Weems, how ever, to place him in comparison with historians. He was not a historian He was an exhorter. In whatever he the winner and also the second prize wrote he made a special plea. He set from the nearest competitor out with a fixed and definite intentiou. and, though altogether lacking in literary artistry, he hewed to the line until he reached "Finis." In the case of the Washington book his purpose was to place before the public, partie plarly before young Americans, a pleture of a St. Washington, idealized, ha loed, anreoled, until very few attributes merely human were left. He succeeded, and his work pleased the public of his day and for many years thereafter. More than seventy call tions of Weenis' "Washington" were published during the nineteenth century In 1837 Joseph Allen of Phila delphia purchased the copyright and brought out the "twenty seventh ed tion, greatly improved," though Mr. Weems had been dead since 1825.

It can do no harm to give a brief account of Parson Weenis' life As the Proteses anecdotal langrapher of Washington he is almost as interesting as John-

"GEORGE, DO YOU KNOW WHO KILLED THAT RESULTIFUL CHERRY THEE? son's Roswell He was born in Mary land about 1760, stud.ed medicine, but

gave it up to go to England and prepare himself for the Enscopal minis try. It appears that he found no bish op in London to admit him to holy orders Returning to America, he was still worse off, as there was no Angli can bishop in the new world at that I time However, he finally became a prenciser, though it is said that he eared little for creed being willing to preach in a church of any denomina tion. He appears never to have held a regular rectorate. When he was about thirty years old, he became a book agent, seiling books through Virginia for Matthew Parcy, the Philadelphia publisher. He also began writing books hineself and peddled his own werks. The Washington life in particular bad a great sale

Parson Weems had a reputation as an anmitent comedian and as one of the best fieldlers to Viginia. When he had no opportunity to exhort through sermons, he diversed the people through music and amusing sentes. He was, it appears, a stern moralist and in many respects an udmirable character, a credit to his period. As an author Mr Weenis cannot withstand the flerce light that beats upon literary criticism His life of Washington is full of exclamation points and dashes, und in this respect, but assuredly in no other, it resembles Carlyle's "French Revolution." The whole book is filled with the kind of matter which un varnest. devout evangelist of his period might talk to a Sunday school class or prench from the pulpit. Long passages morallzing on incidents in Wushington's career are sandwiched between the inci-

Parson Weems was a prodigious producer. One of his own books which he peddled through Virginia was "The Drunkard's Looking Glass, Reflecting a Faithful Likeness of the Brunkard In Sundry Very Interesting Attliudes. With Lively Representations of the Many Strange Capers Which He Cuts In Different Stages of Ills Disease." Our Sherlock Holmes must infer from the length and hurden of this title that the parson traveled about in a very stont huggy. This book had six editions by 1818. Another work was "Tin-Bad Wife's Looking Glass; or, God's Revenge Against Cruelty to Has hands." As this had but two editions up to 1823, we must conclude that the ladies didn't take to it as they did to the drunkard's looking glass. "Hy men's Recruiting Sergeant; or, the New Matrimonial Tattoo For Old Buchelors," was even more popular, for it had seven editions by 1821.

When the Hair Falls

Then it's time to act! No time to study, to read, to experiment! You want to save your hair, and save it quickly, too! So make up your mind this very minute that if your hair ever comes out you will use Ayer's Hair Vigor. It makes the scalp healthy. The hair stays in. It cannot do anything eise. It's nature's way.

The best kind of a testimonial — "Sold for over sixty years." SARSAPARILLA. ers PILLS. CHERRY PECTORAL

Take for instance the Mine-workrs union who are continually strikng for higher wages, the result is he increase in the price of enal to the consumer. Coal being an artiele morded in every family in our aml, and by every factory and railroad, it increases the cost of living to every human being. The fires pon our own hearth-stones are more xpensive, the shoes and plothes we wear are more dear because the cost of production and transportation is made more expensive, and in the and the coasumers pay it.

What is true of one labor union is true of all others. All equally corrupt and pernicions, and what cernicions in one is pernicions in all. While they claim to be organized for legitimate jurposes, in every instance they have been used for illegitimate purposes.

In theory unions are organizations for the protection of labor against the tyranny and oppression of capital. In practice labor unions are organization for the restraint of labor and the manaeling of capital. The modern labor unions are combinations for the sole purpose of sur thering the interests of the trade orcraft as a whole. In the old system there was the element of solidarity in the relations of labor and capital, the new system there is the element of antagonism, in the old system the craftsman prospered according to his skilt and industry, in the new system skill and industry is reduced to one common denominator called the union scale of wage.

Again, my friends, labor unions are akin to socialism, and everyone here agrees with me when I say socialism is a form of anarchy. And said, "The only hope for the working class is socialism. Already the Cigar Makers union has pledged itself to socialism. Also the Brewer. Makers Union No. 114, of Providence, R. I. But this is not the elimax. The Western Confederation of Labor, with 160,000 members in their tenth annual convention. lmartily endorsed the platform of the socialist party, and it is only a question of time when others will follow in their foot-steps.

Nor is this the worst feature. We could afford to be taxed to the limit to live. We could pay it and hear it, if they would only let a citizen enjoy what is rightfully his, and run his own business.

The worst foes of America are the fees to that orderly liberty, without which our republic would speedily perisb. The reckiess labor unions that arouse the mob to riot and bloodshed is in the last analysis the most dangerous enemy to our coun-

Sever can this republic stand if

And as years go by and only the feature; and inasmuch as all ers, then all men are effected direct- procure an honest living and drive perhaps the wolf from his door.

and who for greed and gain resort to the turch and burn down the property of those who are in sympathy with their ideas of right and wrong, With those ideas of right propagated and proctained by labor unious, (and are indeed proclaimed by members and are the direct results of their unions.) if they are no be cherished and fostered by this government, it will prove our downfall. But with this spirit eradicated, and the proper restraints thrown around wealth, America will still stand and bid the distant generations had. The aspiration of her natural life must be the sublime moral courage to combat in time, this the greatest curse to our

And in conclusion, ladies and gentlemen, I will speak of the effect of unions on politics. Our great political parties today together with our chief magistrat, are afraid to correct the evils that result from unions, but for political purposes accept the

political parties are criticising unrelentingly the acts of the Federal Judge, Evans, because he had the nerve and courage to stand up for what he thought was right, declare nnconstitutional a Federal law that undertook to take from a railroad company, the right to employ or discharge whosoever they might deem proper. And why this criticism? It is to make fair weather with this stupendous power the labor nuion, whose votes are needed to elect any party to power. Hence I repeat it, it will be a dark day for America when this union of strength intimidates the great political parties who are now at its helm and wrenches from them this government and places it the hands of the Socialistic party. Our leaders cannot afford to flatter the mob or hang upon its neek, nor pander to its passions, nor can they afford to suffer its foaming hate, or its exulting enthusiasm to tough the compoise of our country's business. Time forbids me to arraign unions further, but my colleagues will tell you still more of their per-

Neglected Colds Threaten Life

"Don't triffle with a cold," is good advice for prudent men and women. It may be vital in the ease of a child Proper food, good ventilation, and dry, warm elothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe eold is to the germs of diphtheria what honey is to the bee. The greatest menaee to child life at this season of year is the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that ean be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable eures of this ailment. A cold never results in pneu-monia when it is given. For sale by Haynes & Taylor.

Wlfe-Yes, It was I who brought all the money into this household. What did you have before I married you? Husband-Peace.

Thoroughly Reliable

If ever there was a reliable and safe remedy it is that old and famous porous plaster-Alleock's. It has been in use for sixty years, and is as popular to day as ever, and we doubt if there is a civilized community on the face of the globe where this wonderful pain reliever eannot be found. In the selection of the ingredients and in their manufacture the greatest care is taken to keep up to the highest standard of excellence and so pure and simple are the ingredients that even a child can use

Alleock's are the original and genuine porous plasters and are sold by Pringgists in every part of the civilized world.

No Shade for Him. An Irishman approached a friend: "Arrah, but it's too hot up in this

north country. I'm going south; sure, 'tis the place for me." Said his friend: "You'd do worse to go south, Mur-

phy, for it's % in the shade down "Faith, and what care I for that same? Sure, I woudn't be afther stayin' in the shade."-Judge,

MAJESTIC BAKING DEMONSTRATION One Week, March 4th to 9th, Inclusive.

We heartily invite our friends to call any day during the above mentioned week and we will demonstrate the superior qualities of the

New Majestic Malleable and Charcoal Iron Ranges

The MAJESTIC MALLEABLE and steel range as formerly turned out by the Majestic people has been considered throughout the country as par excellence and far ahead of any other range made. But with the NEW CHARCOAL IRON BODY in place of Steel making it double its value, and the fact that it is the only range in existence made of Malleable and Charcoal fron, you can readily see that if quality is considered, the Majestic leads by a big margin. WE WANT YOU TO CALL at our store during this week, and let us explain this new feature -CHARCOAL IRON BODIES let us explain why it is the best material for range bodies, and incidentally why it is not used on other ranges. We want you to eal if you intend to hay or not as the information gained will serve you in the future.

Hot Coffee and Biscuits, Free

Come any day during this week and have buttered but besents and hot coffee. Bisequits laked on Majestic in three minutes while you wait

Handsome Set of Ware, Free

With every range sold during this demonstration we will give absolutely FREE one set of Majestic warworth every ceut of \$7,50. This will be on exhibition at for store. Everythoug need discretal and durable Come in and see it, and you will agree with us that I cannot be fought for a cent less than \$7.50 and it i cheap at that.

> Come in any Day. You are Welcome whether you intend to buy or not.
